

Image bank for people with a communication disability

Disneyland® Paris is committed to ensuring that every visitor can make the most of their stay in the Disney Parks. For visitors with communication disabilities, Disneyland Paris has created, in collaboration with experts, an image bank.

These images can be used to both help visitors with comprehension difficulties, as well as provide them with a tool to help support their means of communication.

The image bank can be used as a visual timetable, a choice board or as part of the visitor's communication binder.

In order to be accessible to the widest possible audience and easily identifiable, photos have been used and names of some attractions and objects have been modified or simplified.
